### Lockirby2

**When civilization collapse, all means of surviving are good!**

Lockirby2 goes DARK here. Being caught off-guard by this and the fact that it seriously brings into question Celes' character and is a simultaneous commentary on the World of Ruin earns this entry 3rd. Honestly, even tho its a winner, I try not to think about it as much as possible...

### Madsiur

**The best time for a taste of God is always when you are the busiest!**

Madsir brings a touch of real life into Narshe. I don't know whether or not Arvis read the pamphlet or not, but the Narshe Guards definitely converted me into a believer of this edit. Terra, at least, probably had a much easier time escaping Narshe; although, not without an interesting worldview being the first memories her amnesiac mind gets to create. Can you IMAGINE how this might have affected our protagonist throughout the World of Balance?
