Leo lives through the imagination of 90's kids!

Admission time people... I TRIED these things when I was younger. A perfect blend of changing the game, humor, real-life rumors, and nostalgia took the win here. Even the fact that there should be more (much more) after this dialog box was completely appropriate. This hit all the checkmarks and makes us all a bit wistful for the return of General Leo... I might have to go download the General Leo Edition hack and play it now just to satisfy the itch.

1st way: Go to the dinosaur forest (WoR) and fight and win 4,000 battles. After this is done, you will start getting into fights with Gold Dragons. Eventually they will give you a resurrect potion which will revive Leo. At this point he will join your party.

2nd way: When you get the Phoenix Esper, and all the screen is black (before you see the words, "The Village of Kohlingen"), press: A B X Y UP DN DN L R L R Select. Then Leo will revive.

CONGRATULATIONS **JACKIMUS!**
